FRIGOCAT

The Indel B's portable thermoelectric fridge FRIGOCAT has been designed to be fitted in the narrowest available space and is ideal for use in tractors, vans, trucks, and cars. As opposed to most other thermoelectric systems which are little more than cold boxes, the FRIGOCAT is a real refrigerator capable of reaching a temperature of 2°C even with an external temperature of 32°C. Compact design. The FRIGOCAT portable refrigerator can hold 2x2 litres bottles. Fixing kit as standard.
